THE NEW WAY OF BUSINESS™

The Sony UPX-C100 digital printing system – the affordable solution for today’s passport and ID photo applications – low investment, high profits

Capture image

Press Print button for preview
Press Print button again to transfer image data via USB to printer

Approx. 20 seconds to shoot another image
Approx. 76 seconds from image transfer to completed picture

The U.S. State Department estimates that 73 percent of Americans now lack passports. Demand for passports could increase to 16 million in the 2007 fiscal year. Source: nytimes.com 10/01/06

Easy-to-use operation

From image-capture to printing, the UPX-C100 system is very simple to operate. All functions can be performed easily from the digital still camera! Just click the shutter button, preview the image on the camera's LCD screen, and then press the PRINT button. The result? Photo-quality digital prints every time.

The Sony UPX-C100 Digital Printing System enables retailers to enter today's Passport/ID-photo market at an affordable initial investment cost. It provides a turnkey solution that – from the moment it's installed – allows you to profit.

Advanced features

Auto Review – After the shutter button is pressed, the camera automatically displays the captured image on the LCD screen. The image remains on the screen until you take another photo. This innovative feature saves you time because you do not have to switch from Camera Mode to Play Mode to review and print photos.

Perfectly sized images – In addition to offering four preset frame sizes to choose from, the UPX-C100 system can easily adjust the position of the head and chin lines, as well as the right and left lines, to create a customized frame. This enables you to get the exact size you need every time. The system also supports the standard size of a U.S. passport photo.

Easy color adjustment – With the color-guide function, the UPX-C100 system allows you to make hue, contrast, and tone adjustments easily to enhance the quality of your images.

Versatile printing

Using the 4 x 6" media, the printer allows you to choose from 16 different image sizes, including one borderless mini portrait and two standard size passport photos. Using the 3.5 x 4" media, you can choose from 14 different image sizes.

USB Connectivity

The UPX-C100 system is equipped with a USB interface that enables image data to be transferred quickly from the camera to the printer.

Compact, space-saving design

The compact design of both the camera and the printer enable the UPX-C100 system to fit in even the smallest retail space.

Printer dimensions: 8" (W) x 3³/₈" (H) x 12¹/₈" (D)

Camera dimensions: 3⁷/₈" (W) x 2⁵/₈" (H) x 1⁵/₁₆" (D)

Color and B/W printing

The UPX-C100 system provides both color and black and white (B/W) print options for a variety of Passport/ID-photo applications.

Specifications

Digital Still Camera

Resolution	1/2.5" CCD with 5M pixels (effective pixels 5)
Image Format	Exif 2.2 compliance
Data Compression	JPEG
Image Capacity	FULL (2,576 x 1,932 pixels): approx. 10 images HIGH (1,280 x 960 pixels): approx. 40 images STD (832 x 624 pixels): approx. 73 images HIGH-ID (1,280 x 960 pixels): approx. 40 images STD-ID (832 x 624 pixels): approx. 73 images
Lens	f=5.7 to 17.1mm, 3 times
Aperture	F2.8/F5.6 (Wide) - F4.8/F9.6 (Tele)
Shutter Speed	Auto, Manual 1/2 to 1/1000 second
White Balance	Auto, One Push, Manual (3,000 K to 7,000 K, 500 K steps selectable)
Focus	Auto focus (0.8 m and over)
Flash	Internal flash (GN6)
Sensitivity	ISO 100 equivalent
LCD Monitor	2" TFT color LCD (110 K pixels)
Interface	USB host port for the printer
Power Supply	DC In (5.0 V) or 2 AA batteries
Dimensions	3 ^{7/8} " (W) x 2 ^{5/8} " (H) x 1 ^{5/16} " (D)
Weight	Approx. 7oz (without batteries)

Digital Photo Printer

Printing Method	Dye sublimation thermal transfer
Resolution	403 dpi
Gradation	256 level (8 bits) each for Yellow, Cyan, Magenta
Paper Size	UPC-X34: 3.5 x 4" UPC-X46: 4 x 6"
Printing Time*	UPC-X34: approx. 65 seconds UPC-X46: approx. 100 seconds
Paper Tray Capacity	UPC-X34: 30 sheets UPC-X46: 25 sheets
Interface	USB
Power Requirements	AC 100 to 240 V, 50/60 Hz
Dimensions	8" (W) x 3 ^{3/8} " (H) x 12 ^{3/8} " (D)
Weight	Approx. 5lbs 15oz

General

Safety Standards	UL60950-1 listed, FCC Part15 Subpart B Digital Devices Class B, CSA C22.2 No.60950-1, ICES-003 Issue 4 Class B apparatus, EN60950-1, EN55022 + 55024 (Class B), EN61000-3-2 / EN61000-3-3
